

CHILE 2020
GREEN HYDROGEN SUMMIT

3 - 4, November

CHILE 2020 GREEN HYDROGEN SUMMIT

3RD INTERNATIONAL CONFERENCE & NETWORKING

The most important online event about Green Hydrogen in Latin America

ORGANIZAN:

PATROCINAN:

OBJECTIVES

- Highlight the role of hydrogen in the global energy transition and its relevance for the achievement of net-zero carbon in Chile, but also in Latin America.
- Spread a cohesive story of a new economy recovery with positive economic, environmental and social impacts at local and global levels.
- Generate high-level dialogues around key unresolved topics of green hydrogen development.
- Position Chile as an emerging leader in the development of the hydrogen economy.

The Green Hydrogen Summit – Chile 2020 International Conference is the largest hydrogen event to be held in Latin America and one of the main open access digital conferences on the subject. This two days virtual event will bring together authorities and company representatives to analyze the opportunities and challenges that hydrogen presents in the world. In addition, the event includes a platform that will allow business meetings between the different actors in the hydrogen value chain.
